For: COATING COMPOSITION FOR GLASS

**SUPPLEMENTAL DECLARATION FOR REISSUE PATENT APPLICATION TO  
CORRECT 'ERRORS' STATEMENT (37CFR 1.175)**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

We, David A. Russo, Ryan R. Dirkx, and Glenn P. Florczak, hereby declare that:

1. Our residences, mailing address and citizenships are stated below next to our names.
2. We believe that we are the original and first inventors of the subject matter which is described and claimed in patent number 5,401,305 granted March 28, 1995 and for which a reissue patent is sought on the invention entitled "Coating Composition For Glass", the specification of which was filed on April 7, 1999 as reissue application number 09/287,664 and is amended in an amendment filed herewith.
3. We acknowledge our duty to disclose to the U.S Patent and Trademark Office all information known to us which may be material to patentability of the claims under consideration in this reissue application.
4. We have reviewed and understand the contents of the above-identified specification, including the

claims, as amended by any amendment referred to above.

5. Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant. The patent claims are directed to a gaseous composition, but they failed to claim a process for forming an oxide composition by oxidizing a gaseous composition.

6. We hereby declare that all statements made herein of our own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
